Mr. Graham E. Mitchell, DOE Coordinator  
Ohio Environmental Protection Agency  
40 South Main Street  
Dayton, OH 45402

Dear Mr. Mitchell:

**OHIO EPA COMMENTS ON THE FINAL INITIAL SCREENING OF ALTERNATIVES (ISA) REPORT  
FOR OPERABLE UNIT (OU) 1**

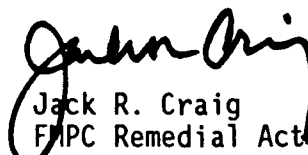

We acknowledge receipt of your comments on the Final ISA Report for OU 1. 4-002-1001.7  
These comments have been entered into the Administrative Record.

A significant number of these comments deal with Risk Assessment issues, which must be resolved before the comments can be adequately addressed. We are preparing addenda to the RI and the FS Work Plans, which will address these issues in significantly more detail than could be presented in a response to comments.

Therefore, we are proposing to delay the development of a response to these comments until you have had an opportunity to review the addenda. We believe this strategy is warranted with the current status of the Remedial Investigation/Feasibility Study effort and should not impact any future negotiated schedule.

If you have any questions, please contact Oba Vincent at (513) 738-6937.

Sincerely,

  
Jack R. Craig  
FMPC Remedial Action  
Project Director
